## Introduction to MathMagic for Windows

There are two MathMagic products for Windows.

- MathMagic Personal Edition (MathMagic Personal Application)
- MathMagic Pro Edition (MathMagic Pro Application, MathMagic Plug-in for Adobe® InDesign™)

MathMagic Personal Edition is a stand-alone application which runs on Windows environment. It is a general purpose equation editor which can be used alone or together with other applications like Microsoft® Word™ thru OLE, Copy&Paste, or Drag&Drop.

MathMagic Pro Edition comes with more feature than Personal Edition.

It also interactively work with MathMagic Plug-in for Adobe InDesign.

This is for desktop publishers and high-end users who need to edit equations within Adobe® InDesign™.

MathMagic Windows versions support cross platform file format compatibility with the Macintosh editions.

## Why MathMagic™ ?

There are many reasons why all users ranging from novices to professional users choose MathMagic products. But simply, the superior productivity, equation quality and customizable features attract users.

Students, Teachers, Professors, Researchers,  
Engineers, Editors, Publishers, ...

Create all equations  
in MathMagic beautifully,  
and share them with others widely.

## Productivity

- Intelligent WYSIWYG editor with automatic equation formatting
- Configurable User Item palette and Clips palette for easier access and repeated use
- StyleSet management for group-wide sharing of editing environment and settings

## Features

- Many Pre-defined Templates and Symbols in palettes that cover Mathmathics, Physics, Electronics, Accounting, and other higher education.
- Various formats for compatibility with other software: EPS, Tex, WMF and MathML (available separately)

## Quality

- Wide range of quality fonts for mathematical symbols in True Type formats
- Ability to customize Template shapes, thickness, gaps, position, and size up to 2400dpi resolution

## Easy to Use

- All graphic user interface, plus fast keyboard input support for many common templates and symbols
- Similar User Interface with Equation Editor and MathType to reduce any additional learning cost

## System Requirements

- Pentium or faster
- Windows 98 or later (ME, 2000, NT, XP)
- Adobe® InDesign™ v2.0 or newer (for MathMagic Pro Edition)
- About 15MB of hard disk space
